

# Electric Windshield Washer Reservoir Kit Instructions

1. Mount the windshield wiper fluid bottle.
2. Mount the push button switch.
3. Run the clear hose from the wiper fluid bottle motor to the windshield squirter mounted on the cowl.
4. Plug the wiring harness into the wiper fluid bottle motor.
5. Connect the black wire from the wiring harness to ground.
6. Connect the blue wire from the wiring harness to one side of the push button switch.
7. Connect the other side of the push button switch to a 5 Amp in-line fuse (sold separately) before connecting to the 12 volt ignition switch.
